The Workforce Employment Utilization Report For Non-Construction Firms is prepared by all contractors, and subcontractors if any, supplying commodities or providing professional construction consulting or consulting services (skilled or non-skilled) to a state agency to document their actual employment of minority group members and women during the period covered by the report. The report has a format similar to forms used by the Federal government for reporting equal employment opportunity data. When the contract specific work force can be identified, the report covers all employees (including apprentices or trainees) working on the project. If the contract specific workforce cannot be separated out, the contractor's total workforce is reported. The completed reports are used by the contracting state agency to monitor the contractor's and subcontractor's compliance with the contract's equal employment opportunity requirements.

#### FEDERAL OCCUPATIONAL CATEGORIES:

These are: Officials and Managers, Professionals, Technicians, Sales, Office & Clerical (Administrative Support), Craft Workers, Operatives, Laborers, and Service Workers. The categories are general in nature, and include all related occupational job titles. The contracting agency can provide assistance in categorizing specific jobs.
